ETHICS & AESTHETICS

COLLECTION

THE MOPAR'S ETHIC & AESTHETIC COLLECTION HAS BEEN CREATED TO PROMOTE A MORE SUSTAINABLE IDEA OF STYLE. FOR MANY OF THESE ACCESSORIES, WE USED RECYCLED MATERIALS TO ELEVATE THE DESIGN FROM AESTHETIC TO ETHIC, BECAUSE EVERYONE MUST BE ABLE TO MAKE A DIFFERENCE.

Let's make a difference with a collection of Authentic Accessories created with the aim to leave a smooth footprint, without giving up of style on style.

PEBBLE STONE KEY
60020933731
A unique design for an exclusive wearable with an external coating produced with DURABIO™, a bio-based polycarbonate resin with plant-derived raw materials. The Pebble Key is a standard content included with the passive entry optional.

CABLE BAG
50290433
CABLE BAG + CABLE MODE 3
60020933726
The Mode 3 cable comes in a dedicated bag embellished by a signature 500 logo. The bag contains a pair of gloves too, so that you don't need to get your hands dirty during the charging. The bottom of the bag is made of non-slip material, in order to keep it secure inside the trunk.

CABLE REEL
50290518
While charging, the cable lies on the ground and gets dirty and sometimes wet as well. This results in dirty hands and dirty clothes while picking up the cable. The cable, often with knots in it, ends up loose in the trunk moving from left to right, which makes the trunk dirty.

LEAF ROOF DECAL
50290304
An iconic leaf to reinforce the connection of 500e to the nature.

AIR IONIZER
50290343
This practical device helps to eliminate the micro-particles in the air. Its design is elegant, minimalistic and functional as well: you can also detach it from the car and bring it into your home to keep breathing fresh air.

PREMIUM MATS
50290338
The Premium Mats powered by Mopar have been created with Econyl®, recycled nylon from landfills and oceans.

ECO CAR CARE KIT WITH 500 LOGO
50290526
It comes in an eco-friendly bag with the 500 logo and the products are contained in aluminium bottles. The kit consists of a pair of pure cotton white special gloves, a 100% natural sponge, a bamboo multi-purpose cloth, and a wheel natural fiber brush with hood handle.

D-FENCE PACK

D-FENCE
60020933696

A good solution to help the hygiene on board. The D-Fence Pack helps to purify the air inside the car through the Prime Cabin filter that capture impurities from outside and the new Air Purifier that helps to clean the air inside, while the UV Lamp helps to hygienize the surfaces.

THE AIR PURIFIER
71808749
Conceived by MOPAR® and manufactured by Philips, is a portable device, with an integrated HEPA filter, that removes up to 98% of airborne bacteria, eliminates toxic gases and fine particles such as PM 2.5, plus cigarette smoke and dust.

THE UV-C CLEANER
155252944
Conceived by MOPAR® and manufactured by Yanfeng, is a plug & play device which irradiates the interior surfaces of the vehicle with a UV light. By killing the bacteria on those surfaces, the customer can enjoy a safer and healthier environment.

MOPAR® PRIME CABIN FILTERS
71778553
Are carbon activated filters with an additional treatment based on Polyphenol that can neutralize allergens. The polyphenol coating is also efficient against any kind of proteinaceous particle, preventing mold and bacteria entering the vehicle.

HERITAGE.

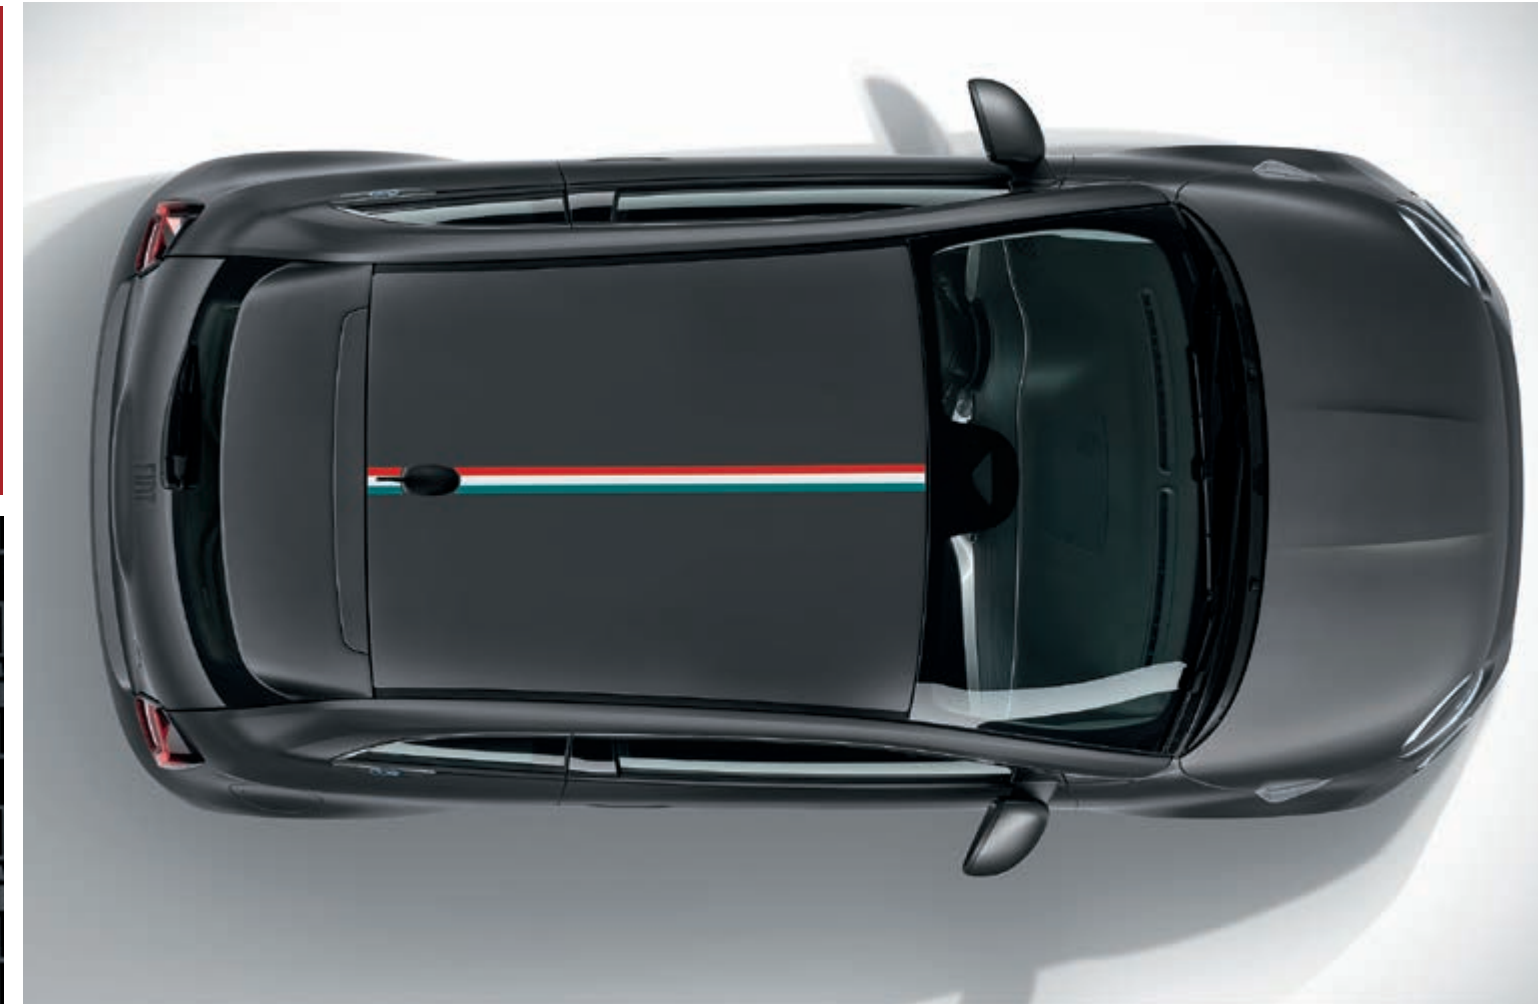

The New 500 is a masterpiece of Italian design and with this range of Authentic Accessories you'll be able to show off your charm in the most stylish way possible. So, whatever the road takes you, get ready to stand out with a unique style that honours the new electric 500's roots.

ROOF DECAL FIAT MONOGRAM
50290303

The new electric 500 is back in the Mirafiori Plant with a new stylish minimalist logo. Not available on cabrio version.

ROOF DECAL ITALIAN FLAG
50290302
The Italian flag stripe on the roof is a tribute to the homeland of the new electric 500. Not available on cabrio version.

INDOOR CAR COVER
50290416
Wrap your car in a stylish protective garment.

ITALIAN FLAG BADGE
50901681
The Italian badge is a little gem that reinforces the Italian character of this car.

MORE POWER
TO THE EVERYDAY

MOPAR® OFFERS A FULL SET OF CHARGING SOLUTIONS FOR YOUR NEW ELECTRIC 500. EACH IS DESIGNED TO BE EASY TO USE AND MEET DIFFERENT NEEDS IN TERMS OF CONNECTIVITY AND REMOTE ASSISTANCE.

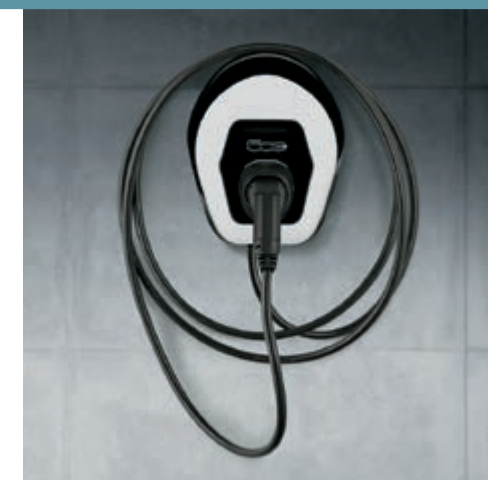

The charging data refers to the New 500 with 42kWh battery, 15%-80% Soc window. For example, arriving at home with 15% of remaining battery and recharging the car to 80%. The figures shown are an indicative estimation only. Charging times are approximate and may vary depending on various factors such as the type and condition of the charger, electric provider and the temperature of the battery at the point of use.

The images are for reference only and are not explanatory of the product.

A FULL SET OF HOME CHARGING SOLUTIONS

Mopar®, the aftersales brand of Fiat Chrysler Automobiles, offers different home charging solutions for the all new 500. Each is designed to be easy to use and meet different needs in terms of connectivity and remote assistance.

EASYWALLBOX
52189606

A Plug & Play solution you can control via Bluetooth. It has a charging power of 2.3 kW which, with the assistance of an electrician, can reach up to 7.4 kW, allowing you to recharge the car up to 80% in less than 4 hours, and independently adjust its charging power, compatible with home power sources, avoiding power outages.

The maximum power that can be distributed by easyWallbox is regulated by the local legislation in force in each country.

DOMESTIC CABLE
46352777

The Mode 2 Cable is a 6 metre long cable with an ICCB (in Cable Control Box). It has schukotype domestic outlet, which can be plugged into a normal household socket allowing you to easily charge your vehicle at home, with a charging power of up to 3 kW.

EASY SOLUTIONS FOR PUBLIC CHARGING

Wherever you are, recharging your new electric 500 is always a breeze. Thanks to a practical cable that allows you easily refueling your car at public charging stations. The Mode 3 Cable reaches a charging power of 11kW and enables you to charge up to 80% of full capacity in less than 3 hours and up to 51 miles of range in just 1 hour. Simplify your experience by also integrating the cable reel and cable bag

CABLE REEL
50290518

While charging, the cable lies on the ground and gets dirty and sometimes wet as well. This results in dirty hands and dirty clothes while picking up the cable. The cable, often with knots in it, ends up loose in the trunk moving from left to right, which makes the trunk dirty.

CABLE BAG
50290433
CABLE BAG + CABLE MODE 3
60020933726

The Mode 3 cable comes in a dedicated bag embellished by a signature 500 logo. The bag contains a pair of gloves too, so that you don't need to get your hands dirty during the charging. The bottom of the bag is made of non-slip material, in order to keep it secure inside the trunk.
